

Boo!

Welcome to the Marino Boogie Monsterz!

It's that time of year again, and all the neighbours have heard the pitter patter of tiny feet on their roofs, and spooky grunts and grumbles floating in their windows.

The Monsterz were away, for nearly a whole year. They travelled back in time to the distant past, (the 1970s to be exact!) Now they're hyped up on disco and ready to go!

They want to "let all the children boogie" and celebrate the true hero's of the past year. You! The kids! So you are invited to dress up and dance around the park on the hunt for some old familiar faces and some new ones too.

Last year the virus fuelled our imaginations and allowed us to dream up this little adventure. It brought laughter and excitement to the neighbourhood. We loved it and so did the Monsterz. And so they are back for more.

The game is flexible and suitable for kids of all ages, but the 'Creepy Clues' along with the blank map, will probably suit those who are a little bit older (5-7yr). With a few tweaks here and there, you can tailor it according to your kids ability.

This year we have added a few activity sheets for the kids to get their creative juices flowing.

A penny for your thoughts:

Please email outoutstudio@gmail.com with your thoughts and suggestions to help us improve and grow this project.

Creepy Covid-19 related:

Parents are responsible for maintaining safe distances within the park. You are invited to wear masks and remain 2m apart.

Families can do it in their own time and if the park is too busy, please come back when it is quieter.

Misfit Pack

In this pack you will find instructions, a map and a checklist with mugshots of all the Monsterz so you can keep an eye out for them in the trees. The activity sheets can be completed at home after you find them all. We would love to see your drawings of your favourite Monsterz and feel free to create your own, let your imagination run wild!

This year the game is flexible and suitable for kids of all ages, with alternative ways to search depending on the kiddies age.

Minis

For younger kids, there is a map showing the general location for each of the Monsterz, just look for the eyes! Kids can search at these locations and check off the Monsterz on their checklist as they find them.

Midis

For older kids, there are Cryptic Creepy clues. The kids can solve the clues to find the locations and then search for the Monsterz. Use the checklist to tick off each monster as you find them. (If the clues are too cryptic, you can always refer to the map with locations to find any monster you get stuck on!)

Instructions:

You will need

1. Map*
2. Checklist*
3. Creepy clues (for older kids)
4. Marker
5. Warm clothes
6. Torch if dark (but best to go early)
7. Binoculars/night vision glasses/compass
8. Snacks to lure the Monsterz out of hiding

What next?

- Go to the Marino Crescent anytime from 25th October with your Misfit pack and search for the Boogie Monsterz. Don't forget to look up!
- Tick off the Monsterz on your checklist as you find them.

Mini Matisse Art Academy

This year the academy invites you to complete the activity sheets. There should be at least 1 to suit all younger misfits. And we would love if you could draw your own Monsterz too! (Who knows, they might even make an appearance next year!)

Ask your parents to post pictures of your checklist/activity sheets/your fantastic costumes and please include the hashtag **#marinomonsterz**.

* A colour print out of the pack is ideal, but your phone or iPad will work just as well.

Creepy Clues

(page 1)

Monster Hunt Clues:

Clue 1: This monster loves to read and enjoys a good scare, they're especially fond of a certain Vampire so you'll find them alone reading the engraved stone.

Clue 2: When this monster hits a slump, he usually likes to feed at the dump, so you'll find him near the next best thing, the bin! Go to the bin and face towards Howth Church, take 25 steps forward and search the bush.

Clue 3: This monster gets tired easily, so they found the perfect place to rest. Starting at the East entrance, go clockwise along the footpath and you'll find them hiding behind the 2nd bench, in a tree with a trunk in the shape of a 'V'.

Clue 4: These two monsterz love to have the chats, with their funny monster language, they sound like a pair of cats! Look for the tree in the shape of a 'V', the one with the strange green squiggle.

Clue 5: This monster likes to be unique, so you'll find them on the INNER wall of the park where some of the wall is blocky and different from the rest.

Clue 6: Even though its Halloween, this monster really loves the Festive season, so they've found the perfect tree to makes them feel all Christmassy!

Clue 7: This monster loves bright colours and funky writing, where do you think you'll be most likely to sight them?

Clue 8: To the south of the park, there is a group of 4 trees, one of them has a trunk with a tear, you'll find this monster hanging out there.

Clue 9: These two monsters just love to show off and have a lark, you'll find them racing to climb two of the biggest trees in the park. (North West side)

Creepy Clues

(page 2)

Clue 10: This monster likes to snack on cherries, but there aren't any in the park so they have to make do with red berries!

Clue 11: These two monsterz like to pretend their twins, you'll find them hiding in the White Silver Birch trees that look like two pins.

Clue 12: When this monster gets hungry after giving a good scare, they love nothing more than to gobble a juicy pear!

Clue 13: This monster was feeling like quite the mess, so to change things up they're trying on an ivy dress, you'll find them hiding behind the tree with all the ivy leaves at the east side of the park.

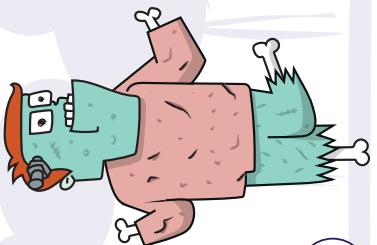

Clue 14: This monster likes to be warm and cosy so they have buried themselves like a mole in the tree with a big hole!

Clue 15: These monsterz likes to keep their claws sharp, so you'll find them near the tree with all its bark ripped and scratched.

Clue 16: This monster loves to hang out with friends, you'll find them hiding in a big group of 6 trees in the centre of the park.

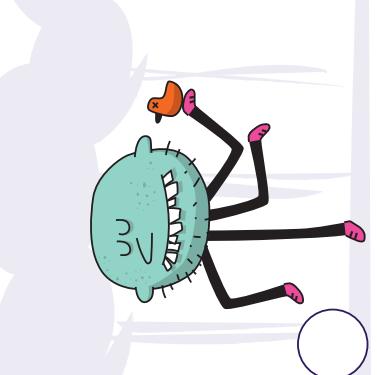

Grunt really knows how to let loose. He broke his leg while trying to learn how to breakdance, what a silly goose!

Oglebock had so much fun on the dance floor, he really tore it up. His moves really are something to behold, at least that's what we've been told!

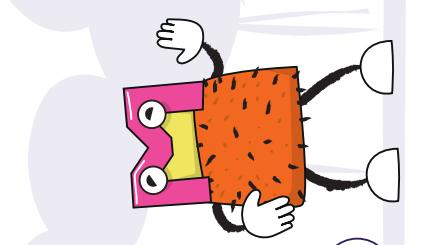

Timby really cleaned up nice, with his wide collared shirt he's as cool as ice. He hasn't had this much fun in quite a while, if you look closely you might even see him smile!

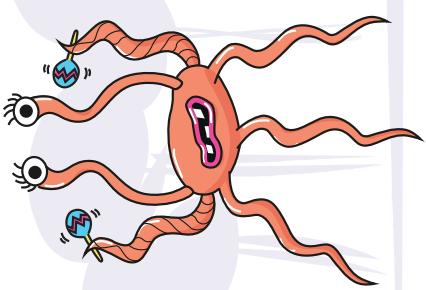

Plonk and little Ducky, are ready to have a ball, they really enjoyed the Seventies, possibly the most of them all.

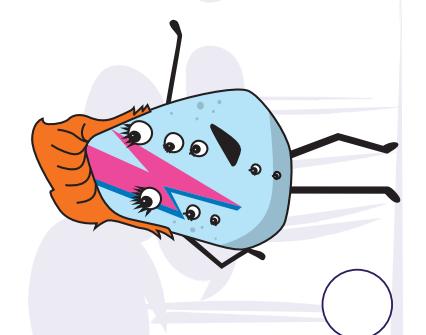

Quincey the dapper chap had a whale of a time while he was away, and with a doff of his cap, he's finally back and ready to dance and sashay!

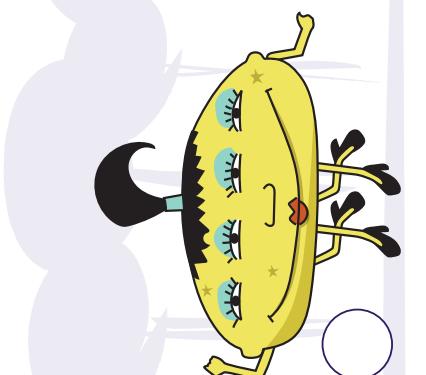

Bonto is still bonkers, bouncing around the floor in a tizzy, just looking at him is enough to make you feel dizzy.

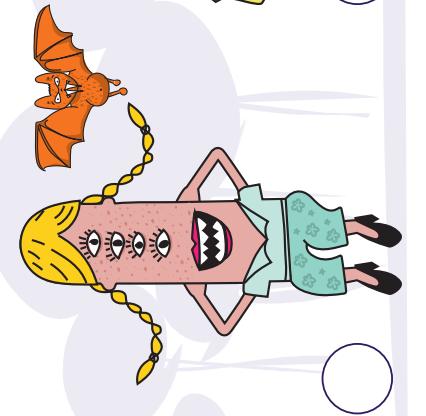

Floopy has really been causing a fracas since she's taken up the maracas. She has no feet, but her Monster friends can't resist dancing to the beat.

Bowie's favourite dance is the Hazy Cosmic Jive, whenever he performs it he really comes alive. It was his idea to let all the children boogie when they arrive.

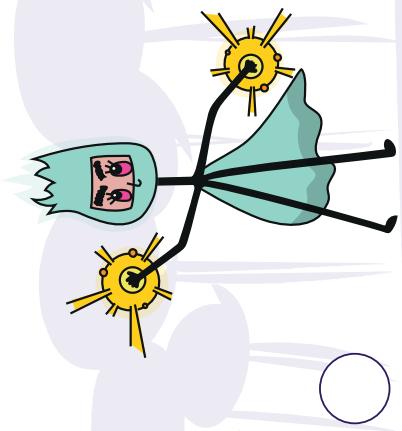

Lucy is quite blessed, having four legs means she can always dance the best. In any competition, she's bound to win, just look at her go, watch her spin.

Mina didn't know how to dance and was feeling a little left out, but Batty saved the day and showed her how to Twist and Shout.

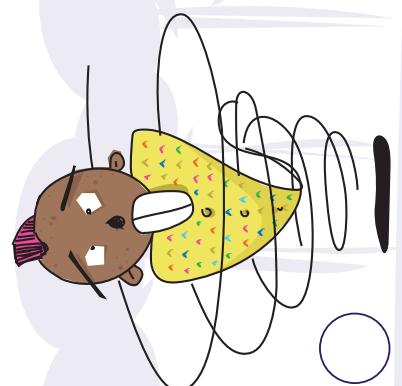

Roller Disco Rita lives fast,
but she's stuck in the past.
You won't find her
strolling when she'd much
rather be rolling!

N-Girl is a super gal whom
you'll really like. She'll
save the city (and anyone
who's six) with one
lightning strike. It shoots
from her fingers until evil
no longer lingers.

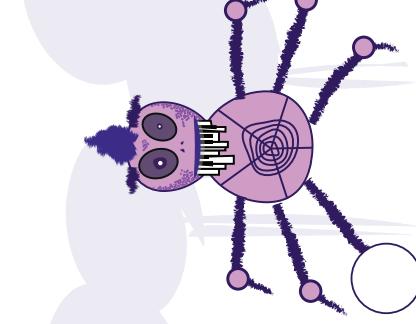

Iris has such grace and
poise as she leaps to the
sky, waving her eye while
showing off her funky new
hair dye.

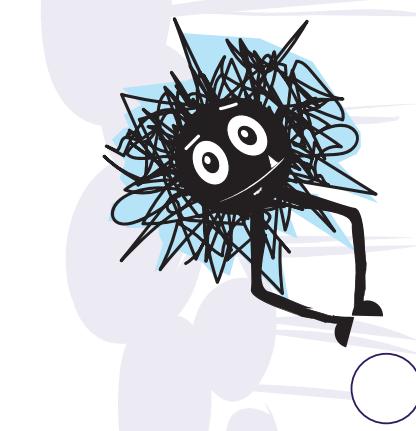

Quentin has gone totally
viral now that he's
invented a new dance
known as the 'Spiral'.

Mr. Harker has a bad case
of Saturday Night Fever.
He's been working so hard
on this years hunt, he's as
busy as a beaver.

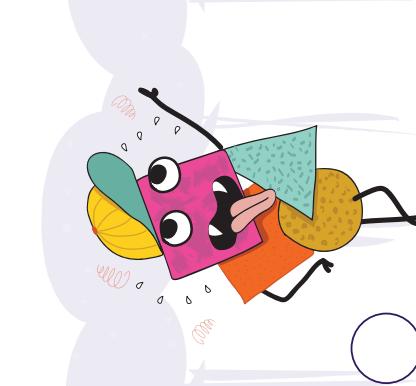

Spider Dance, is king of
the prance, but with so
many legs he can never
find pants!

Mr. Blister being in the
shape of a squiggle, found
it so easy to dance as all
he had to do was twitch
and wiggle.

Nell Bottoms is quite the
diva, but she's such a
great singer you just
have to hear her.

Slim Shapey is the real deal,
he's one of a kind. He's
always changing, never
stays the same, he surely
won't be easy to find.

Disco Poo is the life of
the party, but you best be
warned he's a little bit
farty! He'll get on well
with anyone who can
stand the smell.

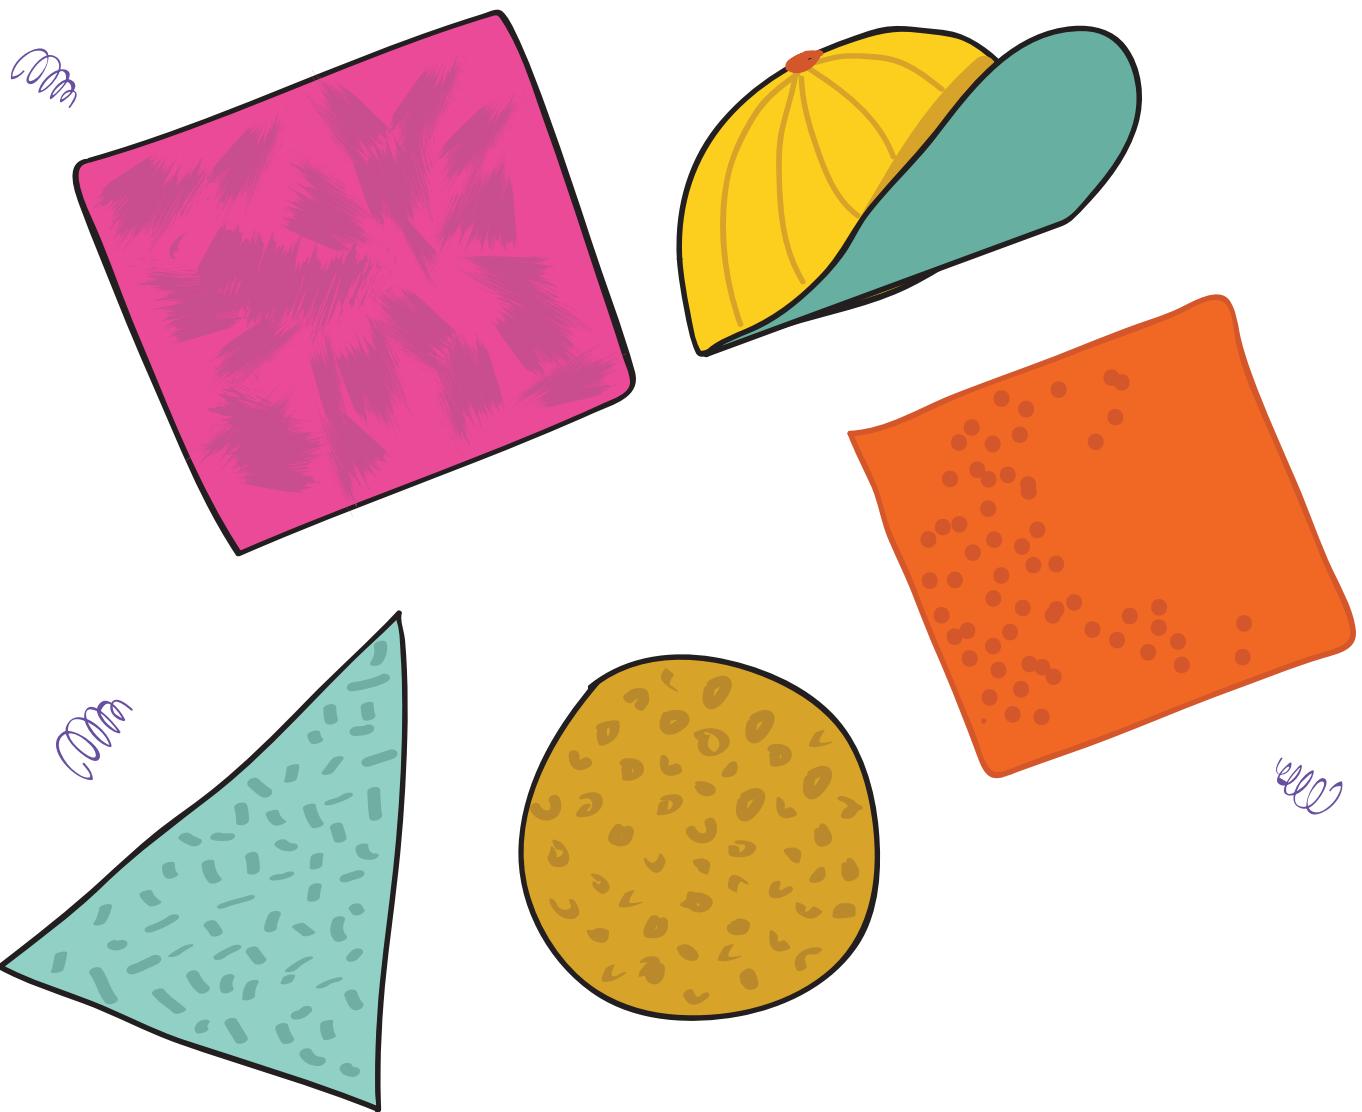

Activity Sheet 1

Slim Shapey has danced so hard he has come apart!!!

His eyes popped out and limbs fell off. Oh dear!

Cut out the shapes (get help from an adult) and rearrange them on a page with glue. Add your own spooky eyes, and groovy arms and legs.

We'd love to see his makeover!

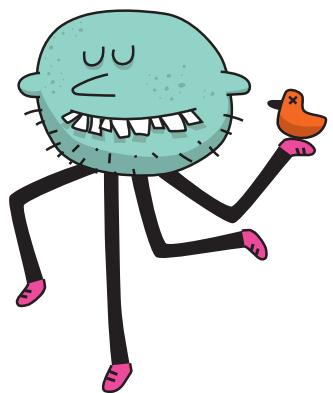

Activity Sheet 2

Plonk certainly has the moves but when it comes to dressing up for a disco his sense of style is all out of whack.

Maybe he needs a hat, some cool shades or a funky pair of glitter flares. You decide!

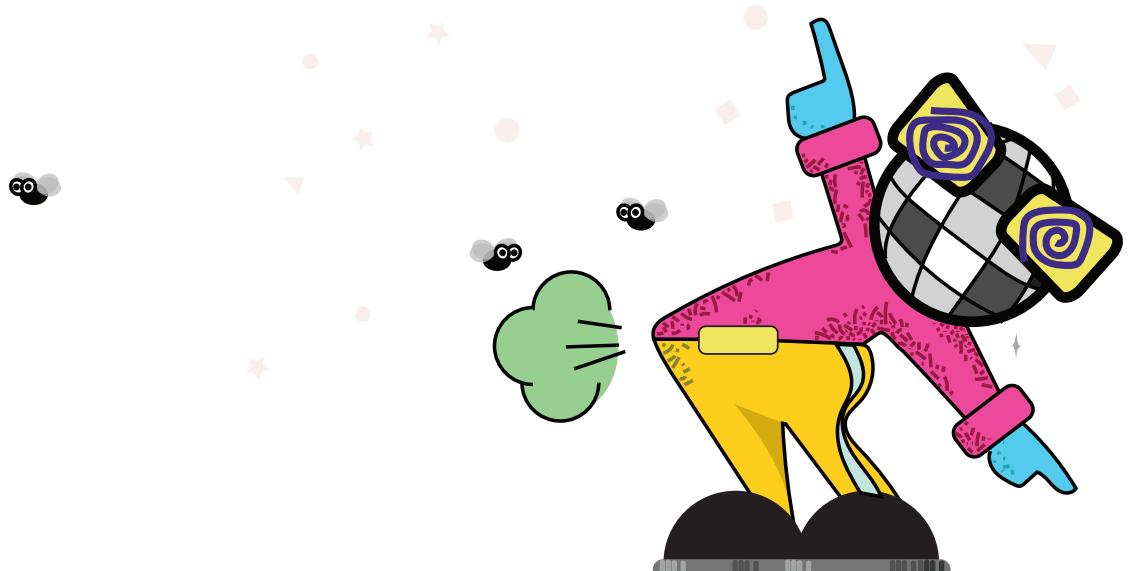

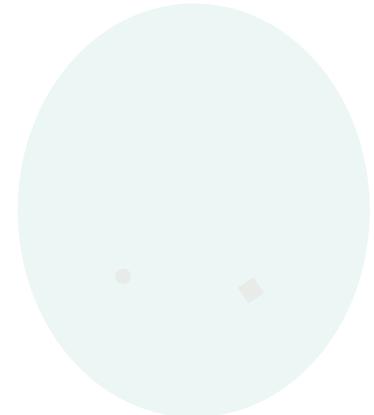

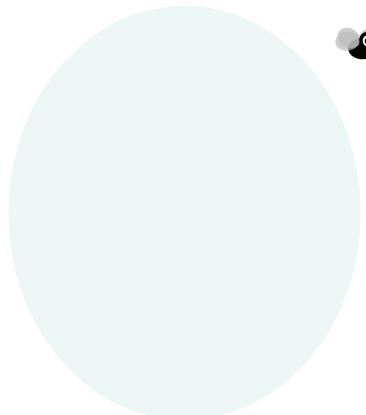

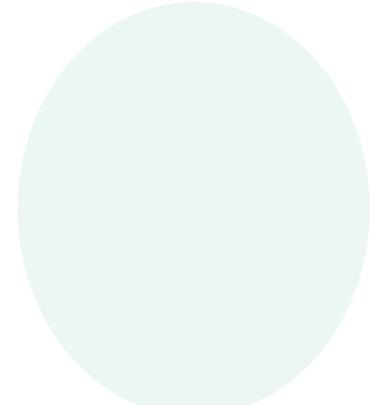

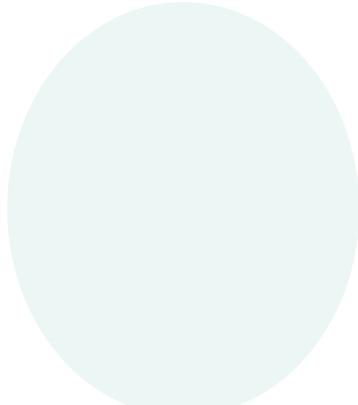

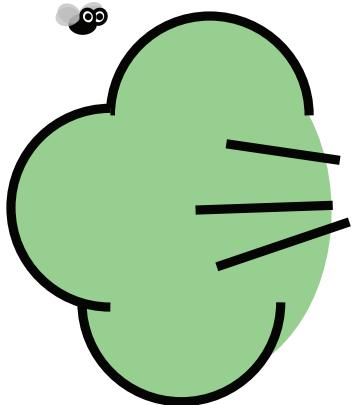

Draw some cool clothes on him and get him ready for the Monsterz big disco party!

Activity Sheet 3

Disco Poo loves to fart. He's actually so skilled at it he can blow out crazy shapes with the green gas that comes out. He's run out of ideas and needs you to draw some whacky ideas!

We'd love to see his new fart shapes! Draw some stinky shapes in the circles below!

Activity Sheet 4

Nell Bottoms is oozing style. She makes her own clothes and dyes her hair a different colour for every party. She loves to experiment with colours and patterns. But she has creative block for the big Halloween Monsterz disco.

Can you help her design a new outfit? And the biggest dilemma... what colour lipstick will she wear?
